Green Poddled Varieties.

Long fellow. This is the best main crop bean for the market gardener. It produces a heavy crop of extra long, straight, round pods. Although the quality is not as good as that of the Stringless Green Pods, it has proven to be a much better seller on the market on account of the superior appearance of the pods.

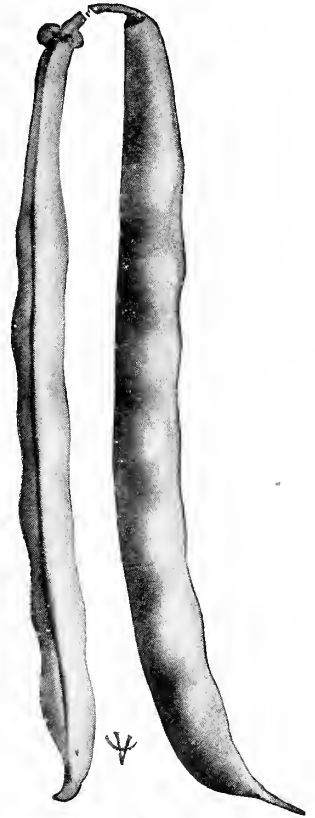

Price, qt., 35c; peck, \$2.50, bushel, \$10.00.

Stringless Green Pod. A bean of extra good quality. The round green pods are entirely stringless and when well advanced in growth retain their crispness and break easily. It is the best bean

for conserving and gardeners that have a family trade will find it profitable to grow this variety. Matures in about six weeks. Price, qt., 45c; peck, \$3.00.

Giant Stringless Green Pod. The pods are a little longer and more straight than the Stringless Green Pod, but matures a little later and this variety is not quite as prolific. Price, qt., 45c; peck, \$3.00.

Early Bountiful. Long, flat, stringless pods. An enormous yielder. A practically six weeks bean, and one of the hardiest. Recommended for first early. Prices, qt., 35c; peck, \$2.50; bushel, \$10.00.

Beets

1 oz. will sow a row of 50 ft. 5 to 6 pounds to the acre.

Crosby's Egyptian. Matures almost as quick as the Extra Early Egyptian, while the quality is far better. The beets are almost round in shape, dark red and make a good top so that bunching is easy. Oz., 10c; 1/4 lb., 25c; lb., \$1.00; 5 lbs., \$1.50.

Detroit Dark Red Turnip. One of the most popular beets with the market gardeners. Beet globular and very smooth. Color of skin dark red; flesh deep bright

Early Eclipse.

BEETS—Continued.

red. The flesh is very tender and sweet, remaining so for a long time. Very uniform in shape, color and quality. An A1 table beet. **Oz., 10c; ¼ lb., 35c; lb., \$1.20.**

Early Eclipse. Handsome, smooth, turnip shaped beet of good quality. One of the earliest and a good beet for bunching. **Oz., 10c; ¼ lb., 25c; lb., 90c; 5 lbs., \$4.00.**

Sluis' Peerless Beet

Extra Early. Very Even Intensive Dark Red

In this new strain of Beet seed we offer a most desirable combination of earliness, beautiful appearance and perfect shape. It matures fully as early as the Extra Early Egyptian, while quality and shape are not surpassed by any other variety. We do not know of any better sort for bunching—has clean roots; pulls easily and good tops and bunches therefore easily. The flesh is dark red, almost without zones and of unequaled quality. No gardener will make a mistake in planting this sort liberally the next season. The illustration on the front cover gives an exact idea of the shape of the beets. **Price, oz., 10c; ¼ lb., 35c; lb., \$1.25; 5 lbs., \$6.00.**

Swiss Chard (Cut and Come Again) Spinach. This vegetable is worthy of a place in every garden. The leaf and the leaf stem are the eatable parts. When sown early, it may be cut several times throughout the summer. **Large Green Leaved, White Ribbed, ¼ lb., 25c; lb., 75c.**

Incullus. Slightly curled, color of the leaves yellowish-green. **¼ lb., 20c; lb., 65c.**

Mangel-Wurzel

Mangels or Cow Beets make one of the best winter feeds for dairy cows or young stock. Their culture is very easy and on good soil they will often yield over 1,000 bushels an acre. As a milk producer the Mangel comes near the head of the feed list. Sow 6 pounds to the acre in May or June in rows 2 feet apart and thin the plants when about 3 inches high to 8 to 10 inches in the row.

Mammoth Long Red. Extensively grown. Enormously productive; a good keeper. Good for deep soils. **Oz., 5c; lb., 35c; 5 lbs., \$1.50.**

Norbiton Giant. Similar to Mammoth Long Red. Same price.

Golden Tankard. A very popular variety of excellent quality. Flesh a deep rich yellow, very sweet and nutritious. Shape a little shorter than the Long Red but thicker. Easily pulled. A very heavy yielder. **Oz., 5c; lb., 35c; 5 lbs., \$1.50.**

Yellow Eckendorf. This variety comes from Germany, where it is more planted than any other sort. The roots are of about the same shape as the Golden Tankard, but more chunky and get considerable larger, oftentimes weighing as much as from 15 to 25 lbs. apiece. Grow largely above the ground and are easily pulled. Flesh, pure white, skin deep yellow. An excellent sort. **Oz., 5c; lb., 35c; 5 lbs., \$1.50.**

Yellow Globe. **Oz., 5c; lb., 35c; 5 lbs., \$1.50.**

Sugar Beets

Sugar Beets are not as heavy yielders as the Mangels, but are of superior quality. Our seed comes from the best European growers and the sugar percentage has been improved as much as possible. Culture same as Mangels.

Klein-Wauzeleben. This is one of the best sugar beets and most largely grown. The root is conical, straight and even. While the yield is not quite as heavy as from the largest Mangels, the quality of the beet is so much better, that every dairy farmer should plant liberally of this fine sort. **Oz., 5c; lb., 45c.**

French Red Top Sugar. A heavy cropper and of good quality. Ripens early. **Oz., 5c; lb., 35c; 5 lbs., \$1.50.**

Lane's Imperial. **Oz., 5c; lb., 35c; 5 lbs., \$1.50.**

Broccoli

Early Purple Cape. A variety with greenish purple heads of good flavor. **Pkt., 10c; oz., 30c; ¼ lb., \$1.00.**

White Cape. Heads of medium size, close and compact; of a creamy white color. A reliable header. **Pkt., 10c; oz., 30c; ¼ lb., \$1.00.**

Italian Sprouting Broccoli. Also imported direct from Italy. Does not make regular heads, but forms a large number of sprouts. Grows about 3 feet tall. **Price, oz., 50c; ¼ lb., \$1.75.**

Brussels Sprouts

Paris Market. Produces sprouts of good quality. Sprouts medium sized, but very solid and keep well. **Pkt., 5c; oz., 15c; ¼ lb., 50c.**

Dwarf Improved. **Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.25.**

Cabbage

Pure and Sure-to-head Seed. 1 oz. produces about 2500 plants. Six of the best first early.

Early Jersey Wakefield. Standard early variety of medium size. Heads are very solid and of best quality. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00.

Charleston Wakefield. Grows nearly twice as large as the Early Jersey Wakefield; but is about two weeks later. Heads pointed. Our stock runs very uniform. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00.

Early York. A superior early heading sort. Heads pointed, compact and very solid. May be planted closely. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.50.

Early Spring. This variety is nearly as early as the Jersey Wakefield, but the heads

Second Early Varieties

Sluis' Allhead Early. Our strain of this variety runs very uniform and is selected every year with the greatest care. The heads are flattish round and very solid. The plants grow compact and may be planted closely. As a main crop variety the Allhead is one of the best. Price, pkt., 5c; oz., 25c; $\frac{1}{4}$ lb., 75c; lb., \$2.50; 5 lbs., \$12.00.

Henderson's Early Summer. A popular variety with market gardeners. About two weeks later than Wakefield, rather larger and globe-shaped. Does not burst readily. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00.

All Seasons. An early sure heading, solid variety. Desirable for early or fall use. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00.

Copenhagen Market.

are of the round, flat type, like Early Summer. Pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 60c; lb., \$2.00.

Copenhagen Market. Gardeners who have grown this cabbage the last couple years are well pleased with it. It is a large, very solid, round heading sort, and comes in as early as the Charleston Wakefield, when sown and planted out at the same time. We can recommend this kind for summer use. Pkt., 10c; oz., 30c; $\frac{1}{4}$ lb., \$1.00; lb., \$3.75.

Sluis' Glory of Enkhuizen. We consider this the best large early cabbage. Comes in at about the same time as Charleston Wakefield, Early Spring or similar extra early varieties, but the heads are perfectly round, very solid and large, oftentimes weighing as much as 10 to 12 pounds. It grows very dwarf and compact with only a few outer leaves, thus permitting a close planting. It is a better cropper than any other early cabbage and the quality is second to none. Price, pkt., 5c; oz., 20c; $\frac{1}{4}$ lb., 70c; lb., \$2.50; 5 lbs., \$12.00.

Late or Winter Varieties

Premium Late Flat Dutch. Excellent sort, heads large and solid, short stemmed. A popular sort with gardeners that grow for kraut factories. Very best seed. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00; 5 lbs., \$9.00.

Large Flat Swedish. Although this is the first year that we list this Cabbage it is not a new one exactly. We have watched it very carefully and have found it to be an extra good late sort. Heads are large, solid and heavy and results have proved that it gives 50 per cent more tonnage to the acre than Danish Ballhead. We can recommend it to our customers. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

East Prairie Winter. This cabbage originated a couple of years ago in one of the principal truck growing sections around Chicago, called East Prairie, near Niles Center. We have grown our stock direct from introducer's seed from carefully selected heads and recommend it to our customers as a splendid late cabbage and excellent winter keeper. Price, oz., 25c; ¼ lb., 90c; lb., \$3.00.

Danish Ballhead. Tall stemmed. Heads very solid. One of the best late cabbage for storing purposes, as its keeping qualities are unsurpassed. Our seed comes from one of the most reliable Danish growers. Price, pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.50.

Holland Short Stem. This kind is rather similar to the Ballhead, only it has a short stem. A fine keeper. This kind is mostly grown in the great cabbage districts of Wisconsin, Michigan, Illinois and Indiana. Our seed may be depended upon to be first class. Pkt., 5c; oz., 25c; ¼ lb., 90c; lb., \$3.00.

BUCHNER'S CABBAGE

We herewith introduce to our customers a late variety of Cabbage, which we can most heartily recommend. It has all the good qualities a late variety should have. Large, fine ribbed, very solid and not easy to crack and a splendid keeper. A vigorous grower and one of the best to withstand the disease. This variety was bred by Mr. Buchner, one of the most successful North side gardeners and he has grown this Cabbage for over twenty years, raising his own seed every year. We have been fortunate in obtaining some seed this year and have a limited supply of seed, grown by Mr. Buchner himself, in stock. Gardeners who usually plant Hollander or Danish Ballhead for a late cabbage, should not fail to try this kind. Price, Oz., \$1.00; ¼ lb., \$3.50; lb., \$12.00. (No more than a pound to one customer.)

Zenith Dark Red. A fine early dark red cabbage. Medium sized. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

Celery Cabbage.

Celery Cabbage

Last year's results have proven that this new vegetable does best, when sown the latter part of June for a fall crop, as it can not stand

the summer heat. The best way is to sow it with the machine in rows about two feet apart and to thin the plants out later on, so that they come about a foot apart in the row. Pkt., 10c; oz., 20c; lb., \$2.00.

Savoy Cabbage

American Allhead Savoy. One of the best, fine curled, good sized, excellent flavor. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

Early Dwarf Ulm. Extra early, but small. Pkt., 5c; oz., 20c; ¼ lb., 60c; lb., \$2.00.

American Savoy.

Carrots

1 oz. will sow a row of 100 feet, 3 to 4 pounds to the acre.

Chantenay. Most excellent variety and also most popular with market gardeners. Matures early and produces roots of good size, about 6 inches long and of a very attractive color. Makes good tops and is easy to bunch. Oz., 10c; ¼ lb., 35c; lb., \$1.25.

Chantenay Carrots.

Extra Early Coreless. A very handsome stump-rooted carrot about the length of the Danvers. Matures before any other variety. Guerande or Oxheart. A short, thick stump-rooted carrot of good quality. About two-thirds the length of Chantenay and thicker. Oz., 10c; ¼ lb., 35c; lb., \$1.25.

Danvers Half Long. Slightly longer than Chantenay. Rich orange-red roots, smooth and handsome, tapering to a blunt point. Flesh sweet and crisp; one of the best for market. Popular variety as a winter carrot. Oz., 10c; ¼ lb., 35c; lb., \$1.25.

William's Perfected Yellow. This is a new variety of Celery from the East and has made quite a hit with Eastern Market Gardeners this past season. It is absolutely the finest strain of Celery that has come to our notice. It is a far better quality Celery than either White Plume and Golden Selfblanching and a much better keeper. It can be bleached with boards just the same as White Plume and Golden Selfblanching. The seed we offer was grown by a gardener from carefully selected plants. Price, pkt., 25c; oz., \$2.00; ¼ lb., \$7.00; lb., \$25.00.

Sluis' Early Market. (No. 587.) This is undoubtedly the grandest early Tomato (not extra early, such as June Pink, but following it). Color dark purplish red, shape globular, fruits smooth, very meaty and solid, with scarcely any seeds, and ripen evenly all over and up to the stem to a beautiful dark purple. Its productiveness is wonderful, the plants are laden with fruits from when the season starts, until they are killed by frost. Pkt., 5c; oz., 30c; ¼ lb., \$1.00.

Bonny Best. A variety of recent introduction. Gave good satisfaction wherever tried. Smooth, deep scarlet and of finest quality. Almost as early as Earliana, but of better quality. A good variety for forcing. Pkt., 5c; oz., 25c; ¼ lb., 75c; lb., \$2.75.

Sluis' Pure and Sure Working Fertilizers

The mixed fertilizers are composed of the best materials, pure and free from any cheap fillers, such as horn, leather, hair and other insoluble matters, which weigh heavy and are of little fertilizing value. Only the choicest, most soluble and easily assimilated ingredients, which are quickly taken up by the plants, are used. Our fertilizers contain no weed seeds, have no disagreeable odor, are fine as pulver, perfectly dry and are easily applied.

The separate fertilizers are bought on analysis and only the highest quality is procured. We will be glad to give analysis, if desired.

Prices of Fertilizers vary according to the market. Persons wanting larger quantities than quoted here, should write for special quotations. Fertilizer prices are for shipment, free delivered Chicago depots, and are strictly net.

"Old Abe" Trucker's Choice. We have handled this brand for the last 5 years and have yet to hear of a single complaint. Most of our customers come back for it every year. It is a mixture of bone, blood and potash and gives excellent results, when used for Cabbage, Onion, Potato, or Corn crops. Should be applied at the rate of 500 to 750 lbs. per acre. Price, F. O. B. Chicago: Per ton, \$28.00; per 500 lbs., \$7.50; per bag of 125 lbs., \$2.10.

Chicago: Per ton, \$26.00; per 500 lbs., \$7.00; per bag of 125 lbs., \$2.00.

"Old Abe" Onion Grower. Of exceptional value for Onion crops, as well as for Early Green Onions, and the Large Dry Onions and Onion sets. Contains a

high percentage of actual potash, most needed to grow Onions successfully. We advise the use of this fertilizer especially to those of our customers, whose fields are bothered by the Onion maggots, which is mostly caused by the use of fresh stable manure. Apply from 600 to 750 lbs. of this fertilizer to the acre. Price F. O. B. Chicago: Per ton, \$45.00; per 500 lbs., \$12.00; per bag of 100 lbs., \$2.50.
